

### Local Intelligence.

Business is fair—the boom is coming. There is not a case of smallpox in the city.

Globe citizen have organized a water company.

A system of sewerage is to be provided by the city council.

The city council is preparing to pass ordinances by the yard.

A brother of Henry Ward Beecher is sojourning in Los Angeles.

Work goes right along upon the streets of Tucson, and so do taxes.

The town in the valley have put on their summer garb of green.

The addition to the Sisters' Hospital, west of town, is progressing.

Mr. S. S. Clawson, formerly of this city, is now in Nashville, Tenn.

The great California Bank would come to be held in April before Judge French.

The gardens in the bottom west of town are looking promising, and so are the wheat fields.

The Epitaph says the trial of J. O. Danbar savors more of persecution than of justice.

The contract of Acting Surgeon John J. Robertson, U. S. Army, has been annulled at his request.

Miss R. Todd, a military correspondent at Fort Lowell, has been discharged on account of her insanity.

Considerable real estate is about to change hands and many substantial building improvements are contemplated.

A reading room is to be opened on the corner of Church and Pennington streets, by the Young Men's Christian Association.

Tucson with her four railroads and reduction works will become the business city in the southwest, and don't you forget it.

Donk Gird got away with the Bidwell horse in the big larceny. An appeal was taken to the United States Supreme Court.

Ex-Indian Agent, Tiffany, is in the city awaiting trial. He is charged with the larceny of the Indian Agency, and the case will be interesting, at least to Mr. Tiffany.

A change in the proprietorship of the Citizens is to take place very shortly. The major interest will be taken up by the late Mr. W. W. Hayward.

In the last hours of the Legislature five thousand dollars were appropriated for getting up a plan for the resources of the Territory, with Hon. Pat Hamilton as statistician.

Many friends and acquaintances will regret to learn that Hon. H. T. Lawrence, who is quite ill, will be taken by her husband to California with a hope of restoration to health.

The Haughton Mining Company have established an office at the corner of the city square, and are now in the city.

The jewellers' trade in gold and silver is quite brisk, and many of the people are making good money.

Mr. S. R. DeLong received a telegram from Sacramento, Cal., stating that his son, S. R. DeLong, Jr., nearly four years of age, was dead. The sympathy of their extensive circle of friends is with the bereaved family.

There are rumors of another Indian fight with the Chiricahua, in which the soldiers are reported to have been successful. About 100 soldiers were killed, and many of the Indians were captured.

"A son of one" Col. Byler, of Grant, Arizona, is said to be a "good" Tucson Republican.

It is so good, that is, "a son of one" that it is something some Tucson people should know about. It is a son of one of the best of men.

Three Papagos were arrested a few days ago for stealing cattle from the Papago reservation.

Minor: We are informed that the Liza Creek hydraulic placer is in full blast, and the water being used to wash the ore.

Major R. H. Harford left on the Ashcroft stage on his way to Tucson. He expressed himself highly pleased with the trip, and the water being used to wash the ore.

Special Agent O. N. Hall, adjutant for the United States Army, has visited Tucson and fully adjusted the losses sustained by the army in the late war.

Minor: We have always thought that the Weaver placers were among the richest and most extensive in the world, but the water question has been a great obstacle to their development.

Major R. H. Harford left on the Ashcroft stage on his way to Tucson. He expressed himself highly pleased with the trip, and the water being used to wash the ore.

Special Agent O. N. Hall, adjutant for the United States Army, has visited Tucson and fully adjusted the losses sustained by the army in the late war.

### THE TADPOLES.

Second Meeting of the Honorable Body—A Great Man Discovers Himself—Discord and Treason—Arbitrary Conduct.

The second weekly meeting of the Tadpoles took place last Saturday night. The president, Mr. Blossom, being too unwell to attend this meeting presented his apologies and was formally excused.

Colonel Brusk was duly elected president pro tem.

The business routine was quickly dispatched and the subject for discussion announced, "Who Are Our Great Men?"

Colonel Brusk opened the debate. He thought this to be a very wide world. There were various forms of greatness. It could be measured by intellect or by avoidance. Greatness, in his estimation, was not to be acquired in following a special line of conduct, but through a combination of great principles.

In his mind the great father of his country, George Washington, was the greatest of men. He was the one who had made the Tadpoles be made.

He thought that the Tadpoles be made of the great father of his country, George Washington, was the greatest of men. He was the one who had made the Tadpoles be made.

Major Littlejohn thought that there might be some difficulty in ascertaining the greatness of a man. He was certain it was on some state line that was possibly just under a cloud.

Judge Bigelow announced that the gentleman was dead.

President Blossom said that if no motion was made he would move to adjourn.

The Tadpoles wear an appropriate badge of mourning for thirty years—evidently a sign of mourning.

The President pro tem raised the motion out of order, as General Washington's tomb is not yet open.

Mr. Modesty, the youngest of the Tadpoles, shamelessly said the ladies should be considered.

The President said, interrupting, that it was the duty of the Tadpoles, in addition to collectively to embrace the ladies wherever and wherever at all occasions.

Mr. Modesty, blushing to the roots of his hair, said that he had not intended to say anything of the kind.

Colonel Brusk, who had been sitting in the rear, said that he had not intended to say anything of the kind.

Colonel Brusk, who had been sitting in the rear, said that he had not intended to say anything of the kind.

### SOMETHING FOR SCIENTISTS.

A Turtle Imbedded in Cement Rock, After Ages of Imprisonment, is Alive and Active.

The days of marvels are not yet at an end, and occasional chance discoveries excite public interest and draw attention to the wonderful works of nature.

The work engaged in by the Tadpoles is to preserve for ages the life which it gave when the earth was without form and void.

One of the most recent discoveries of great interest in a scientific point of view, came to light Friday afternoon in this city.

Colonel Brusk opened the debate. He thought this to be a very wide world. There were various forms of greatness. It could be measured by intellect or by avoidance. Greatness, in his estimation, was not to be acquired in following a special line of conduct, but through a combination of great principles.

In his mind the great father of his country, George Washington, was the greatest of men. He was the one who had made the Tadpoles be made.

He thought that the Tadpoles be made of the great father of his country, George Washington, was the greatest of men. He was the one who had made the Tadpoles be made.

### TOTAL WRECK.

The Great Bonanza Camp.

The New Mill Completed and Putting out Bullion for the First Time.

The Citizens have from time to time published accounts of the Total Wreck mine in the Empire District which from its developments promised to become one of the most important bullion producers in the Territory.

The long delay in placing this property upon a producing basis, which resulted from circumstances at the time beyond the control of the managers of the mine, occasioned some discouragement and some misinformed speculation.

The completion of this mine now rests upon a happy and successful issue.

MAIL TESTS.

As well as measurable ore bodies, and as it is said to say that the expectations of the most sanguine have been more than realized, and to-day the mine is producing bullion.

It is in this fact that the mine is producing bullion, and as it is said to say that the expectations of the most sanguine have been more than realized, and to-day the mine is producing bullion.

It is in this fact that the mine is producing bullion, and as it is said to say that the expectations of the most sanguine have been more than realized, and to-day the mine is producing bullion.
